Horizon High School is a recovery high school. This means our environment and curriculum are structured to provide a safe and sober learning atmosphere for students in recover from drug or alcohol abuse. The classroom setting is small, in order to promote an individualized curriculum and to allow for students' needs. Horizon High School's guideline for enrollment is to maintain a staff to student ratio of five to one. Our student population varies and is usually between 6-14 students. Although the program is targeted at teens in recovery, anyone that needs an alternative to a traditional high school setting is welcome. Horizon does NOT limit enrollment only to students in recovery. To maintain an engaging and educational atmosphere, Horizon High School incorporates guest speakers, life skills education, physical education and field trips. Generally, an outing is planned every week to engage students in their community. Students are encouraged to participate in a variety of activities, both at school and after school, in order to help them maintain their recovery and develop into well-rounded community members. Since Horizon's creation, over 80 young people have attended. Today many of these former students are enrolled in colleges and universities, in the military, or working as contributing members of our community. The mission of Horizon High School is to provide a school that fosters emotional, social and academic growth for students who want to learn in an alcohol-free, drug-free environment. Students will actively assume responsibility.

Service Description:

RISE is an established provider in the CCS Network for Service Facilitation for youth and adults enrolled in CCS in Dane County. RISE has over 15 years experience coordinating comprehensive community-based mental health services for individuals in Dane County living with mental illness. We are dedicated to providing a collaborative team approach. We want to learn from you and about you in order to best understand what is important to you. We know that you know yourself and your family better than anyone, and we will ask for your input on all decisions, both large and small. We focus on people's strengths and abilities. We understand that people have often been through a lot before they walk through our door. We honor that every person comes with cultural beliefs and values, and we strive to understand what is important to you.

RISE offers CCS Service Facilitation and additional services, such as living skills development and psychoeducation, for people receiving service facilitation from our agency.

In our youth work (age 6-17), we recognize the very important role that parents have in raising and supporting their kids. We will ask for your input and hard work, and we will prioritize services that help you become strong and more confident in your parenting. We believe this will help your family be more successful after our work is finished.

In our adult work, (age 18-35 years), we recognize that being a young adult is a unique time in a person's life, which comes with new privileges and challenges. The adult system can be confusing, and we will help guide you as you learn and try new things.

Current services include: Partnering with participants and families to identify needs and goals; Offering developmentally appropriate services to best match the needs and goals; Facilitating the connection to other community providers; Coordinating with providers and team members and supporting participant connection to outpatient providers.; Providing crisis support planning and linkage.; Linking to resources and benefits such as SSDI, SSI, Section-8, food stamps, and housing; Helping to determine times when the participant needs increased or decreased support, including discharge planning.

We encourage clients to take an active role in shaping their counseling and treatment plans. In other words, we fit the therapy to the person and to the circumstances. When appropriate, counseling can take place in our offices, or at the client's home or work-place. We do whatever we can to facilitate therapeutic growth for our clients.*
- *Eye Movement Desensitization and Reprocessing (EMDR)- We have several EMDR certified counselors on staff and have worked in numerous areas to expand this technique.*

Triquestrian's mission is to provide the community with opportunities for growth and learning through the power of horses. We believe horses have the ability to help us experience and explore life from a unique perspective creating opportunities for growing, learning, and healing. All services at Triquestrian are provided utilizing the EAGALA (Equine Assisted Growth and Learning Association) Model. No riding is involved and no horse experience is needed. Equine Assisted Psychotherapy provides an experiential learning opportunity for participants. Because of its experiential nature, it allows a different level of exploration and integration of mind, body, and spirit that is often sometimes difficult to reach within traditional treatment settings. Equine Assisted Learning Services provide participants opportunities for problem solving, communication skill building, leadership training, and self-esteem building. All service can be uniquely tailored to meet the participants' goals.
