Service Description:

Anesis (meaning a place of rest) Therapy:

Anesis Therapy specialized in depression, anxiety, trauma, substance abuse/recovery and family therapy. Anesis provides services for children, adolescents and adults. We believe in compassionate care with using evidence based practices with a systems approach.

Anesis Therapy's philosophy is rooted in systems therapy and uses Narrative Therapy, TFCBT (Trauma Focused Cognitive Behavioral Therapy) for children, ACT parenting, Motivational Interviewing, and cultural interventions. We believe in helping our client's identify their values and skills so they can effectively confront whatever problems they face. Anesis Therapy emphasizes participation of clients in the therapy process; understanding that individual clients are our best resource in helping to resolve inner and circumstantial conflicts. We believe that the person is not the problem, the problem is the problem.

Service Description: <p>Parent coaching is an individualized service to help parents/caregivers understand, respond to, and improve behaviors of youth, based on needs identified in the youth/family's Plan of Care. This is provided on a one-on-one basis with the parent/caregiver. This service provides trauma-informed techniques using the Present Moment Parenting model to educate parents on the specific relationship between unwanted behavior and unexpressed feelings. Once those relationships are understood, parents learn how to approach the child in a way that heals him/her. Services can be provided to birth parents, grandparents, foster parents, kinship parents, other adults in the home, parents who are separate but parenting together, and extended family members</p> <p>Intensive Trauma Services (ITS) with Adults is a program that assists adults to heal from their grief, loss, and trauma that they experienced throughout their lifespan. The goal of ITS is to assist the client to work through what has happened to them to help them understand how this has impacted who they are today. The focus is to not shame or blame, but instead to clarify these life events to work on moving forward into a more positive, healthy future, full of healthy supports and connections. ITS is not therapy, but the healing work is therapeutic for the client.</p> <p>Intensive Trauma Services (ITS) with Youth is a program that assists youth to heal from their grief, loss, and trauma that they've experienced in their childhood. The goal of ITS is to assist the client to work through what has happened to them, clarify their life events, and help them understand that what has happened to them does not need to define who they will become in their future. The focus is to not shame or blame, but instead to clarify these life events to work on moving forward into a more positive, healthy future, full of healthy supports and connections. ITS is not therapy, but the healing work is therapeutic for the client.</p>

Service Description:

Avail Therapeutic Services is owned and operated by Sellers Bell, LCSW. Sellers is experienced working with individuals with a high level of need resulting from co-occurring conditions, including severe and persistent mental illnesses, personality disorders, substance use disorders, and intellectual disabilities. Sellers is able to collaborate with clients and treatment teams to help clients meet their individual goals despite a variety of barriers, including significant functional limitations, behaviors that interfere with therapy, suicidal behavior, non-suicidal self-injury, and dysfunctional living environments. Sellers is accustomed to working with clients in homes and other community-based settings when this is needed to accomplish established goals, such as development of functional skills or the treatment of hoarding behavior. Examples of living skills Sellers is experienced with helping clients develop are skills needed for cleaning, cooking, budgeting, shopping, using public transportation, and accessing needed medical services. Seller's approach to psychotherapy is guided chiefly by Cognitive Behavioral Therapy (CBT). One of the specific treatments Sellers is experienced with within the mode of CBT is Dialectical Behavior Therapy (DBT). Due to only offering 2 of the 4 modes of DBT at this time (individual psychotherapy and skills training), Sellers is able to offer DBT-informed treatment with indicated, but not full-model DBT. All of Seller's work with patients and teams is based on a person-centered, strengths-based approach.

Ages Served: Birth - 17

Service Location: In the home, office, or community-based setting.

Service Limitations: Our specialty is sensory related and regulation issues that often co-exist amongst mental health concerns through family focused treatment. Parents must be able to attend and participate in sessions.

Service Description:

Children's Therapy Network is a pediatric therapy clinic specializing in the treatment of children with Sensory Processing Disorders, Autism Spectrum Disorders, Behavioral and Social Difficulties, Developmental Delay, and Feeding and Eating concerns. In addition to serving children with identified needs, we also help families and community providers support children who may just be struggling to successfully get through their day. We believe that children are best supported in the context of their family and community. This belief is reflected in our therapeutic and training sessions. When children come to us, more often than not we invite the parents and/or siblings into the therapy sessions with us. We work to balance therapeutic intervention aimed at the child with training and support for the families. We feel that by developing close, trusting relationships, not only with the children that we serve, but also with the parents and caregivers, we are able to effect more change in our therapeutic intervention. Our goal is that the family is able to leave our relationship with a greater understanding of their child and the tools and advocacy skills needed to support their child.

Service Description:

CLA is a local, non-profit, trauma-informed, community based organization. For over thirty (30) years CLA has been a trusted provider in Dane County and has designed and provided innovative programs and services that support the independent living needs of all people with disabilities and older adults.

CLA has rich history in supporting individuals with all disabilities and those who have chronic health and pain conditions. These conditions often produce anxiety or depression and other symptoms which may challenge interpersonal relationships and limit one's ability to live a meaningful life. We partner with individuals to gain insight through education to effectively manage their symptoms and uncover barriers to achieve their recovery goals.

The core values of our organization embraces the central tenets of the independent living philosophy. We believe that people should have a choice in the services that they receive and must be at the center of all treatment planning and goal identification.

CLA as a trauma informed care organization embraces the principles of trauma based care and has a rich understanding and respect for an individual's journey towards health and wellbeing. We recognize the impact of social isolation and see great value in promoting opportunities for community connections and healthy interpersonal relationships.

CLA is unique in understanding the impact of mobility and chronic pain and other issues which may limit an individual's ability to participate in therapy outside of the home. Therefore, CLA provides in-home as well as traditional office services. Our expertise also extends to supporting individuals as they work through their own personal grief and loss process and move toward adapting to and coping with change.

<p>Service Description:</p> <p>Cornucopia Peer Support means that while we don't try to do things for you (provide rides or errands, get to appointments, do shopping etc), a Peer Support Specialist will spend time with you, perhaps taking a walk, just listening, not always talking. A Peer Specialist can help you express yourself, or remember and keep track of things.</p> <p>A peer does not treat anything. They create a relationship and establish trust. They get close, care and feel pain. They learn about you and your strengths, help you find strength in yourself and your own direction. They will not tell you what to do. They are role models in their own recovery. They have experienced similar challenges. They have reason to share hope for recovery. They work along with your therapist and other supporters. They can help you to reduce "symptoms" and hospitalization, increase community participation, improve self esteem. Developing personal skills for daily life and employment/career are also key to a better life. These are also our focus.</p> <p>For these areas of support, five Peer Support Specialists and a Rehabilitation Psychologist are available directly through Cornucopia. We also facilitate services with the entire Dane county network. If you feel that our central location and style/philosophy are comfortable for you, we will help you gather a support team and choose the services and supports for the direction you choose.</p> <p>Our administrative staff have been committed to Cornucopia for twenty years. As peers in recovery, they appreciate the priorities of everyone who seeks mutual support. Our service director and practitioners share our philosophy of working with each person's talents and dignity.</p>

Our Philosophy: We believe that every person is a valuable human being, and therefore will be treated with respect and dignity. We believe that there is dignity in risk, and that risks must be taken to grow beyond the safety of preconceived limitations. We believe that all people deserve to live in and be a part of the community. We believe that the physical environment of a community program reflects the dignity and worth of the individuals who live and work there, and therefore must be well maintained. We believe that all people deserve the right to choose, guide, and/or direct the way they live.

Service Description:

Forward Counseling and Consultation's vision is to provide culturally competent, holistic, and wellness focused services that promote an individual's social-emotional wellbeing, decrease and/or prevent development of mental health challenges, and address social-emotional problems that currently exist. We will do this by using evidence-based strategies in our services; by supporting staff training and wellbeing; by implementing effective mental health consultation to individuals, families, and staff; by facilitating mental health services for individuals who need them; and by continuing to strive for excellence in supporting mental health for all individuals in our community.

Forward's clinical staff is dually licensed to address mental health and substance use disorders with over 15 years of experience. Staff has experience in crisis intervention, case management, and individual and group therapy within community agencies that address mental health issues.

Staff has advanced training in trauma and is skilled at addressing a wide range of diagnoses and issues including: anxiety and mood disorders, psychosis, attachment and complex trauma in combination with substance use disorders, grief and loss, interpersonal conflicts, homelessness, domestic violence, loss of independence and adjustment difficulties.

Forward staff will tailor the treatment approach to each client by using a variety of methods including: cognitive behavioral therapy, behavioral activation, mindfulness, solution-focused, strengths-based motivational interviewing, prolonged exposure and eye movement desensitization and reprocessing (EMDR).

At FLYY we work with teens and young adults by teaching them the skills they need to be able to plan for their future or to eventually live on their own. From cooking, cleaning, organizing and budgeting skills, to increasing their exposure to the Madison community by becoming more familiar with its parks, libraries, public transportation--FLYY does it all. Our services give young people the skills and supports they need to master mental health challenges and reduce the negative impact these challenges can have on daily lives.

FLYY's skill development and therapy services are geared towards providing young people experiential learning within their communities to improve their likelihood of success as they develop. FLYY also works with youth that are having troubles managing their emotions and behaviors by teaching them to understand and identify their triggers, manage their anger, stress, anxiety or sadness and by modeling healthy and appropriate behaviors. Additionally, FLYY staff also work with youth on developing and implementing new coping skills, emotional regulation, problem solving, social skills and distress tolerance. We specialize in working with youth and young adults who may not respond well to traditional therapeutic services.

In addition to supporting youth and young adults of our community, FLYY also works with parents by offering various programs to support and teach as well as family therapy services and mediation. FLYY serves youth and young adults ages 10-35.

—Gentle, trauma-informed varieties of hatha, flow, yin yoga, and chair yoga, designed to nourish mental and emotional well-being in people of all ages. Individual and small group yoga sessions provide support and symptom relief for people who experience anxiety, depression, grief, insomnia, or other kinds of emotional distress.

—Presentations and psychoeducation about complex trauma and body-centered healing, for groups, families, and individuals of various ages.

—Trauma Center Trauma Sensitive Yoga (TCTSY), a gentle adjunct treatment for complex or relational trauma caused by chronic or overwhelming neglect, maltreatment, abuse, sexual assault, systems of oppression, or other human violence. TCTSY is based on an accessible form of hatha yoga which has been specifically developed at the Trauma Center of BrooklineMA to focus on alleviating and healing symptoms of complex trauma through practices of invitation, choice, creating rhythms, and mindful body awareness (interoception). TCTSY invites people who are living with trauma to work at their own pace as they explore releasing tension, strengthening a sense of efficacy, expanding their window of tolerance for physical and emotional sensations, befriending their own bodies, and learning to live more often in the present moment rather than in the traumatizing past.

Service Description: <p>Horizon High School is a recovery high school. This means our environment and curriculum are structured to provide a safe and sober learning atmosphere for students in recover from drug or alcohol abuse. The classroom setting is small, in order to promote an individualized curriculum and to allow for students' needs. Horizon High School's guideline for enrollment is to maintain a staff to student ratio of five to one. Our student population varies and is usually between 6-14 students. Although the program is targeted at teens in recovery, anyone that needs an alternative to a traditional high school setting is welcome. Horizon does NOT limit enrollment only to students in recovery. To maintain an engaging and educational atmosphere, Horizon High School incorporates guest speakers, life skills education, physical education and field trips. Generally, an outing is planned every week to engage students in their community. Students are encouraged to participate in a variety of activities, both at school and after school, in order to help them maintain their recovery and develop into well-rounded community members. Since Horizon's creation, over 80 young people have attended. Today many of these former students are enrolled in colleges and universities, in the military, or working as contributing members of our community. The mission of Horizon High School is to provide a school that fosters emotional, social and academic growth for students who want to learn in an alcohol-free, drug-free environment. Students will actively assume responsibility.</p>

<p>Service Description:</p> <p>Orion Family Services is a private, nonprofit organization which serves children, adolescents and families throughout Wisconsin. Orion's programs are dedicated to providing compassionate treatment services to troubled children and their families. Services include outpatient and in-home individual and family therapy to children, adolescents and families as well as a range of other critical outreach services. The Orion Intensive In-Home Family Therapy Program is designed for treatment of children and adolescents experiencing severe emotional, behavioral, and social difficulties within their home, school or community. Including families in treatment when working with children and adolescents is an approach that improves individual and family functioning. Although the identified client is the child or adolescent, the program's focus includes treatment that supports the family in resolving their difficulties. The philosophy of the program is that everyone in the family is responsible, but no one is to blame. Treatment emphasis is placed up on enhancing family strengths and supporting positive changes in the family system, in order to improve the overall functioning of the child. Therapists work with families to increase family cohesion and effective communication, and to create a supportive family environment where negative behaviors are reduced and positive behaviors increased. Parenting skills education is incorporated in treatment in either a formal curriculum-based approach (through out Parent Skill-Builder Program) or informally as needed. For families impacted by trauma, we help healing occur through the use of trauma-informed treatment approaches such as Trauma-Focused Cognitive-Behavioral Therapy (TF-CBT). Orion has clinicians that have obtained advanced training in the utilization of this evidence-based and highly effective model for resolving trauma and reducing resultant emotional, behavioral, and interpersonal issues.</p>

Service Description:

Clients of all ages come to my work seeking healing from trauma or for support in navigating major life crises; other clients are looking for growth and guidance in facing addictions, relationship issues, depression/anxiety, or low self-esteem; and yet others are in the midst of a life transition and want support to build a foundation for the new life they are creating. I meet clients from a strength-based perspective and seek to provide an exceptional therapy experience that helps clients reconnect with their own extraordinary nature. As clients gain access to freedom and awareness, new possibilities emerge for themselves and how they approach life. I provide effective therapy and coaching that stems from a holistic lens integrating the physical, intellectual, emotional and spiritual life of my clients. My integral approach is rooted in various theories: humanistic, psychodynamic, object relations, attachment, and Solution-Focused. I use somatic therapy techniques, mindfulness, exposure therapy, sand tray therapy and other expressive therapies. I also share ideas based in transformative learning that can offer permanent shifts in perspective. With children and caregivers, I also use Developmental and Attachment Play Therapy (DAPT) and Trauma-Focused Cognitive Behavioral Therapy (TF-CBT), when appropriate.

<p>Service Description:</p> <p>Triquestrian’s mission is to provide the community with opportunities for growth and learning through the power of horses. We believe horses have the ability to help us experience and explore life from a unique perspective creating opportunities for growing, learning, and healing. All services at Triquestrian are provided utilizing the EAGALA (Equine Assisted Growth and Learning Association) Model. No riding is involved and no horse experience is needed. Equine Assisted Psychotherapy provides an experiential learning opportunity for participants. Because of its experiential nature, it allows a different level of exploration and integration of mind, body, and spirit that is often sometimes difficult to reach within traditional treatment settings. Equine Assisted Learning Services provide participants opportunities for problem solving, communication skill building, leadership training, and self-esteem building. All service can be uniquely tailored to meet the participants’ goals.</p>

Service Description:

Community TIES is a UW-Waisman Center behavioral support program serving primarily children/families, adolescents and adults with disabilities (DD) who live in the community. Our mission is to address behavioral, psychological, and emotional needs using therapeutic approaches that assure continued participation in supported community life. These needs are commonly referred to as "challenging behaviors." TIES activities are a creative blend various positive practices that have proven effective in meeting complex behavioral and mental health challenges within supported community life.
