| <p><b>Service Description</b></p>  | <p>Bob and Nikki Cohen-Wichner have 30+ years experience helping others learn about horses. From the early 1980s thru the shift toward therapeutic programming made in 2001 their students/clients have ranged from physically or mentally challenged persons whose smiles stretch beyond the sunset over accomplishments that most people would take for granted, to students who have earned National Champion titles through their guidance. What sets Rhythms Of Hope apart is the fact its programs are developed by professional educators who understand how to adapt to meet the needs and learning styles of each individual, even when working with large groups.</p> |  |

| <b>Service Description</b>  | <p>Pediatric neuropsychology is a professional specialty concerned with learning and behavior in relationship to a child's brain. A pediatric neuropsychologist is a licensed psychologist with expertise in how learning and behavior are associated with the development of brain structures and systems. Formal testing of abilities such as memory and language skills assess brain functioning. The pediatric neuropsychologist conducts the evaluation, interprets the test results, and makes recommendations. The neuropsychologist may work in many different settings and may have different roles. He or she may also provide treatment such as cognitive rehabilitation, behavior management, or psychotherapy. Often the neuropsychologist will work closely with physician to manage the child's problems. Some pediatric neuropsychologists work closely with schools to help them provide appropriate educational programs for the child.</p> |  |

| <b>Service Information</b>  | <ul style="list-style-type: none"><li>• Assessment</li><li>• Individual Therapy</li></ul>  |   |
| <b>Service Description</b>  | Our goal at Edelweiss Behavioral Health is to provide specialized treatment to individuals struggling with eating disorders. Our experienced staff works collaboratively with each client and their support system to provide patient-centered, individualized support to encourage and promote recovery. Edelweiss Behavioral Health offers an intensive, but intermediate, level of care (Intensive Outpatient or IOP) that helps individuals to transition from either higher level of care back to their homes or up a level of care to more specifically meet their needs, with extra support that is needed during that time. Clinicians and a dietitian work with individuals in an outpatient (OP) setting. We work directly with clients and families to recommend the appropriate level of care a client needs and will recommend higher levels of care as needed but hope to be able to work with people in both IOP and outpatient settings supporting them on their road to recovery. |   |

| <b>Service Description</b>  | Dance/Movement Therapy (DMT) is an innovative form of psychotherapy grounded in the mind-body connection and in the power of movement as communication. Dance/Movement Therapy works with the whole person integrating movement, creative process, and verbal communication. It has the potential to access emotions and issues that may be inaccessible in verbal therapy. In DMT, movement is used as a vehicle for self-expression, insight, and behavioral change in an affirming, non-judgmental environment. It is an effective treatment for people with psychological, social, developmental, neurological, and physical challenges. |  |

| <b>Service Information</b>  | • Special Therapy- Art  |  |
| <b>Service Description</b>  | I am a Licensed Clinical Social Worker providing individual, couples and family psychotherapy. I work primarily with teens and adult women, queer, gender non-conforming, and trans identifying people. My approach to holistic healing revolves around the use of body-mind awareness, trauma clearing using EMDR (Eye Movement Desensitization and Reprocessing), and building inner resources for resilience. I begin treatment with an in-depth assessment. My strengths as a therapist lie in my capacity for deep listening, compassion, and seeing the best in people. All of you is welcome in the therapeutic relationship and all of you is worthy of compassion. |  |

|----------------------------|---|
| <b>Service Description</b> | <p>Frederick Harris has over 15 years in the field of behavioral health. His journey started working in the criminal justice system; where he served a diverse population comprised of substance abuse, mental health, homelessness, transitions, family dynamics, and criminal behavior. He has had great opportunities to develop restorative and rehabilitation programs, managed in-patient and outpatient programs for co-occurring disorders, and provided clinical therapy to adolescents and adults from all cultural and socioeconomic backgrounds. His direct, warm, and honest approach has been effective in building and maintaining therapeutic relationships.</p> <p>As an African-American, Frederick brings a deep understanding of multicultural, sexuality and other identity issues, where he offers multidimensional perspective and insights from different populations and personal life experiences. His clinical training includes an array of treatment modalities; which he finds to be important because his belief is that one single approach does not work for every individual. His eclectic style allows his clients to feel as though they are not just another person on a list of many, but rather an individual with concerns and issues that he can help them work through.</p> |

| <b>Service Information</b>   | <ul style="list-style-type: none"> <li>• Family Therapy</li> <li>• Individual Therapy</li> <li>• In-Home Treatment/ Transportation</li> </ul>   |  |
| <b>Service Description</b>   | <p>Services for children, adolescents, and families include outpatient and in-home individual and family therapy to children, adolescents and families as well as a range of other critical outreach services.</p> <p>The Orion Intensive In-Home Family Therapy Program is designed for treatment of children and adolescents experiencing severe emotional, behavioral, and social difficulties within their home, school or community. Including families in treatment when working with children and adolescents is an approach that improves individual and family functioning. Although the identified client is the child or adolescent, the program's focus includes treatment that supports the family in resolving their difficulties. The philosophy of the program is that everyone in the family is responsible, but no one is to blame. Treatment emphasis is placed up on enhancing family strengths and supporting positive changes in the family system, in order to improve the overall functioning of the child. Therapists work with families to increase family cohesion and effective communication, and to create a supportive family environment where negative behaviors are reduced, and positive behaviors increased. Parenting skills education is incorporated in treatment in either a formal curriculum-based approach (throughout Parent Skill-BUILDER Program) or informally as needed. For families impacted by trauma, we help healing occur through the use of trauma-informed treatment approaches such as Trauma-Focused Cognitive-Behavioral Therapy (TF-CBT). Orion has clinicians that have obtained advanced training in the utilization of this evidence-based and highly effective model for resolving trauma and reducing resultant emotional, behavioral, and interpersonal issues.</p> |  |

| <b>Service Description</b>   | <p>Triquestrian's mission is to provide the community with opportunities for growth and learning through the power of horses. We believe horses have the ability to help us experience and explore life from a unique perspective creating opportunities for growing, learning, and healing. All services at Triquestrian are provided utilizing the EAGALA (Equine Assisted Growth and Learning Association) Model. No riding is involved and no horse experience is needed. Equine Assisted Psychotherapy provides an experiential learning opportunity for participants. Because of its experiential nature, it allows a different level of exploration and integration of mind, body, and spirit that is often sometimes difficult to reach within traditional treatment settings. Equine Assisted Learning Services provide participants opportunities for problem solving, communication skill building, leadership training, and self-esteem building. All service can be uniquely tailored to meet the participants' goals.</p> |   |
